Personal Profile System® Graph Multiple RBA Comparison

This graph displays several sets of responses to the Role Behavior Analysis™, focusing on the roles defined above. The Role Behavior Analysis™ Grid on the following pages provides specific behavioral statements that can be used for discussing similarities and differences in the behaviors required for the successful fulfillment of a particular role. The descriptive statements refer to how a role needs to be performed regardless of who is in the role. The levels of intensity refer to the importance or frequency of use of a specific role behavior. This information can be used to achieve greater clarity on role performance expectations by separating role behaviors from issues of personal preference or an individual's behavioral style.

Role Behavior Analysis™ Comparison Grid Multiple RBA

★ Outside Sales / Salesperson / Paul Persuader

○ Outside Sales / Salesperson / Sales Manager

		L	ML	M	MH	H
take risks on untested ideas	D			○★

Worksheet for Comparison of RBA

After reviewing the RBA graphs and Comparison Grid, use this worksheet to develop strategies for applying the information in the way that will be most useful in this situation.

1. List those behaviors that indicate the greatest difference between roles.

2. List those behaviors that indicate the least difference between roles.

3. What actions need to be taken based on this information?
